Data Distribution Boxes (For Private Use/Access)

If you're looking for locking mailboxes for sale, then look no further than National Mailboxes. The National Mailboxes H2400 series data distribution box system of cast aluminum mailboxes each have ¼" thick extruded aluminum doors with a durable powder coated silver finish. Each door includes a ¾" High door slot, a five-pin cylinder cam lock with two keys and is hinged horizontally at the bottom. Alternative locking systems are available. Doors are available without slots upon request. The compartments have open backs (rear covers H2451 are available as an option upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Every aluminum distribution box is designed to be installed between rack ladders (H2400). The rack ladders support five units to form a column of boxes. Each aluminum distribution box can also be used in Free-Standing Mail Centers.

Specifications and Features

H2467 Custom Engraved Placards

Key Control Cabinets

AF Single- and Two-Key storage cabinets provide a centralized, secure location for organizing large numbers of keys belonging to many people. Locking key cabinets include all components for a key control system in which all keys are organized and attached to numbered tags hung on slots with numbers corresponding to the tags inside the key storage cabinets. When the key is loaned, a tag with the person's name, the date and the key number is hooked to the slot corresponding to the loaned key inside the key control cabinets.

SINGLE-TAG KEY CONTROL CABINETS (DOUBLE-TAG KEY-CONTROL CABINETS ALSO AVAILABLE, PLEASE CALL FOR DETAILS.)

Vario Configurable 4C Outdoor Mailbox Shelters

The Vario 4C Mailbox Shelter offered by National Mailboxes is America's first fully customizable 4C configurable mailbox shelter, stemming from the need for more architecturally driven design options for centralized mail delivery, which is the US Postal Service's desired method of mail delivery for new developments. This high quality mailbox shelter design provides architects and building specialists with versatility, flexibility, and opportunity to personalize the final product so it integrates with the neighborhood and surrounding architecture. Construct your mailbox shelter to fit your specific project requirements.

Specifications and Features

- Constructed from heavy duty air craft aluminum and structural high strength steel.
- Robotically welded roof sections, side panels, mailbox casings and vertical-horizontal supports.
- Weatherproof, corrosion and scratch resistant powder coated finishes, offered in seven colors: Silver Speck, Postal Grey, Sandstone, Dark Bronze, Forest Green, Black, and White.
- Comes with all necessary hardware including stainless steel fasteners.
- End panels include special pressure preserved plywood sheathing with special coated interior.
- Heavy duty thick gauge aluminum mailbox casings for better security and weather resistant protection.
- Designed to meet 2006 International Builders Code for 90 mph and 150 mph hurricane wind resistance.
- Made to accommodate USPS approved 4C High Security Horizontal Mailbox modules.
- Mailbox shelters can be used alone, attached end to end, back to back, end to end-back to back to create a larger bank of centralized mailboxes.
- Optional accessories available to customize/personalize your shelter installation.

Vario 4C Mailbox Shelters are offered in various configurations to meet any commercial or residential development complex requirement. Shown below are the explanations of the different types of shelter configurations. For more product information and special pricing call customer service at 1-800-676-5161.

- Standard (4C Mailboxes mounted on one side)
- Back to Back (4C Mailboxes mounted on two sides)
- End to End (Two or more standard shelters joined together)
- End to End / Back to Back (Two or more back to back shelters joined together)
- Optional Mid-Selection (Extends an end to end or end to end/back to back installation by adding additional middle connector.)
